

Hospice Care

Living with a life limiting condition.

Aggressive treatment is no longer of benefit.

Goal of care is comfort and management of pain and symptoms.

Call Sharon S. Richardson Community Hospice for a free consultation to learn more about the care provided and the hospice benefit. We can help you get the care you need.

Palliative Care

Are you living with an advancing chronic illness? (Example: ALS, COPD, or heart disease)

Do you want to focus on maintaining your lifestyle and quality of life?

Do you feel your symptoms could be managed better? (Example: pain, shortness of breath, nausea)

Have you had frequent hospitalizations or doctor visits?

Do you desire to continue treatment for your advancing illness?
